COMPANY OVERVIEW

JSW Energy operates in the power generation sector, with a revenue mix of 66% from thermal power and 34% from hydro and renewable energy. The company has a total installed capacity of 4,559 MW. Its operational focus is on reducing carbon footprint and increasing renewable energy capacity. JSW Energy aims to achieve 20% reduction in carbon footprint by 2025. The company is also expanding its renewable energy portfolio.

KEY HIGHLIGHTS

- Revenue growth of 23% YoY
- EBITDA margin expansion of 150 bps
- Net profit increase of 17% YoY

OUTLOOK & VALUATION

JSW Energy's strong operational performance and increasing renewable energy capacity are expected to drive growth. The company's margins are expected to improve due to reduction in fuel costs and increase in renewable energy capacity. However, the company's valuation is a concern due to high debt levels. The management is focused on reducing debt and increasing profitability. The company's long-term growth prospects are positive, driven by increasing demand for power and government initiatives to promote renewable energy. The company's expansion plans in the renewable energy sector are also expected to drive growth.

QUARTERLY FINANCIALS CONSOLIDATED
